

## U.S. Smokefree Casinos and Gambling Facilities

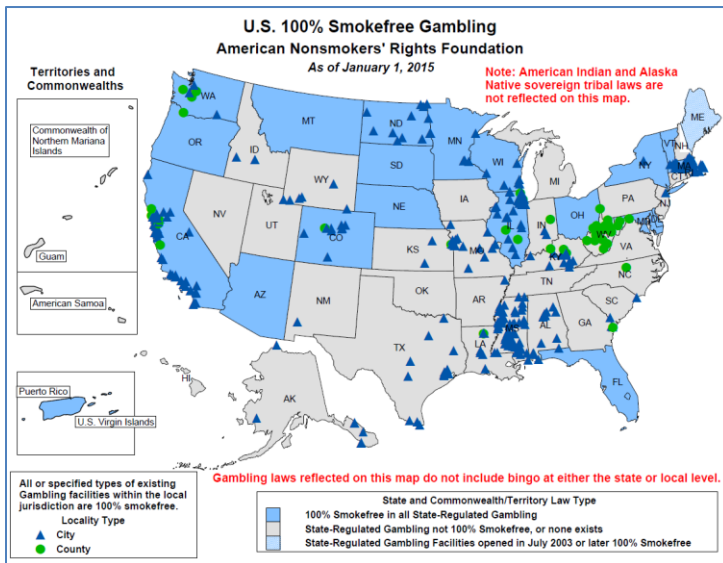

January 1, 2015

### State-regulated Gambling Facilities

There are at least **510** state-regulated gambling facilities that are required to be 100% smokefree indoors. Of the casinos and other facilities listed below, most are required to be smokefree by state law. Additionally, gambling facilities marked with an \* are not required by law to be smokefree, but are smokefree by their own corporate policy. This list does not include all off-track betting (OTB) facilities.

Vermont and Wisconsin's smokefree laws cover state-regulated gambling facilities, but neither state currently has any such facilities. Maine's smokefree law requires state-regulated gambling facilities opened after July 1, 2003 to be 100% smokefree, but prior facilities may have a smoking room.

→ See page 14 for American Indian Sovereign Tribal Gaming Facilities.

To view a map of U.S. states, commonwealths, and territories that require state-regulated gambling facilities to be 100% smokefree, go to <http://www.no-smoke.org/pdf/100smokefreecasinos.pdf>.
