HHS Grants Forecast

The Department of Health and Human Services' Grants Forecast is a database of **planned** grant opportunities proposed by its [agencies](#). Each Forecast record contains actual or estimated dates and funding levels for grants that the agency intends to award during the fiscal year. Forecast **opportunities are subject to change** based on enactment of congressional appropriations.

When funding is available and an agency is ready to accept applications, the agency will issue an official notice, known as a Funding Opportunity Announcement (FOA), which will be available on Grants.gov. The FOA provides guidance on how to receive an application kit and instructions on how to apply.
