

Understanding the California Smokers Helpline

Often times, a smoker will not call the helpline, because they think they have to quit smoking the second they call the helpline. This webinar will help Doctors, Nurses, CHRs, and Tribal Services understand the Helpline, so they are able to explain how the helpline works to patients that are thinking of quitting smoking. The webinar will show what happens when a call is received, counseling sessions, and what services are available.

Tuesday May 17, 2016

1:00pm-2:00pm

**Presenter: Ying Cherrie Ng, Partner Relations
Coordinator, California Smokers Helpline**

Please register beforehand from your computer, tablet or smartphone.
